

Connecting to a Wireless Network at Pasadena Library with Windows 7

To connect to our existing wireless network:

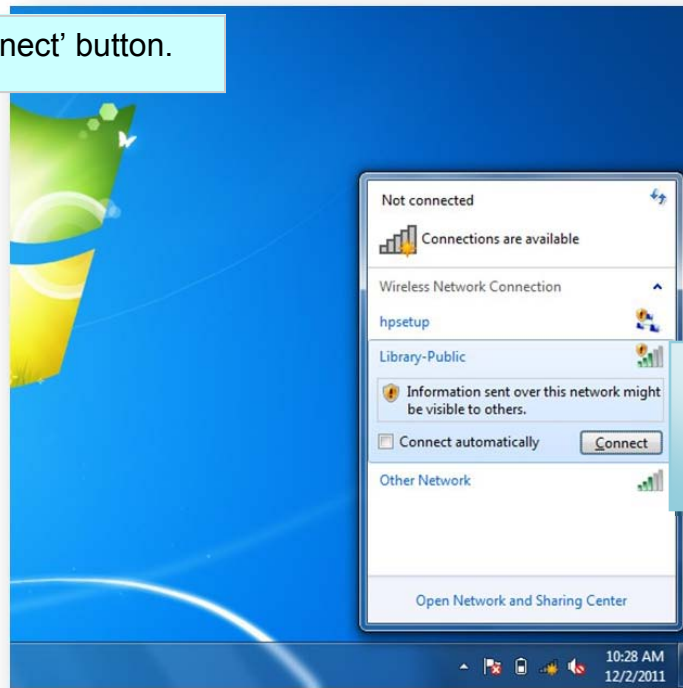

1. Click on the signal bars icon in the lower right hand of your screen OR click on 'Start', then 'Control Panel', then 'Connect to a Network' beneath the NETWORK AND SHARING CENTER heading (not pictured), then choose 'Library-Public' from the list and then the 'Connect' button.

2. Then click on "Library-Public"

3. Now click on the 'Connect' button.

CLICK
-< HERE

4. There will be a moment while the network connects and when the 'connecting...' box disappears, you are ready to surf the internet!
